EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science Engineering - Core – CGPA: 8.56/10

2023 – Present

Bhopal, India

EXPERIENCE

Anantagni Industries

AI Intern

May 2026 – July 2026

Remote

- Prepared and built a custom image dataset for plastic-type classification, annotating and processing 25,000+ individual images to support the development of the machine learning model.
- Worked closely with the ML team on model development approaches and solution discussions, while coordinating directly with the founders on technical requirements, solution proposals, and project budgeting.

Hindalco Industries Limited

Summer Intern

May 2025 – June 2025

Gujarat, India

- Designed and developed an in-house e-logbook application using Oracle APEX to digitize breakdown logging and critical production parameter records, replacing manual record-keeping.
- Integrated company production data into the application and structured database-driven workflows to improve accessibility, consistency, and traceability of operational records.
- Automated operational reports using PL/SQL queries on company data, generating structured summaries for in-charges and management directly within the application.

PROJECTS

ReplyAI – Email Reply AI Assistant

<https://sl1nk.com/2ziz2xe>

- Developed LLM-powered email reply assistant using Google Gemini API with Chrome Extension, reducing manual drafting effort by 60-70%.
- Built and deployed Spring Boot REST API with Nginx reverse proxy, enabling SSL-secured HTTPS communication.
- Deployed the application on AWS EC2 and Vercel CDN, ensuring scalability, availability, and low-latency.

BgRemover – AI Background Remover SaaS

<https://l1nq.com/edjghun>

- Developed AI-powered SaaS platform enabling real-time background removal with average processing time under 10 seconds.
- Deployed Spring Boot backend on AWS EC2 with Amazon RDS-hosted MySQL database, ensuring scalable and reliable data persistence.
- Implemented secure authentication via Clerk and integrated Razorpay for subscription-based payment processing.

SKILLS

Programming: Java (Primary), Python, SQL

Databases: MySQL, MongoDB, AWS RDS

Frameworks & Cloud: Spring Boot, Next.js, AWS EC2

Data & Analytics: Microsoft Excel, Power BI, Data Analysis

ACHIEVEMENTS

- Founded and independently managed a video editing agency for 1.5 years alongside college, leading a team of 3 editors and working with 10+ clients, including international clients.
- Delivered 150+ video projects across short-form and long-form content, generating peak monthly revenue of INR 35K+ through client-based projects.

CERTIFICATIONS

- Amazon Web Service Certified Cloud Practitioner

Issued on: Feb 2026
